

VDA Series DVI Splitters

Single-Link 1:2, Single-Link 1:4, Dual-Link 1:2

The Logical Solution

The DVI Splitters from Thinklogical sends a video source to either 2 or 4 displays without any signal loss. Installation is plug and play, no adjustments are necessary.

The Features

- Sends one Single-Link DVI video signal (Single-Link 1:2 and Single-Link 1:4 models only)
- Sends one Dual-Link DVI video signal to two displays (Dual-Link 1:2 model only)
- Flawless image quality with no frame dropping
- DDC2B compliant (Video source connects to output 1)
- Simple plug and play
- Small form factor
- Compatible with all Thinklogical™ DVI Extenders

The System

The VDA Series DVI Splitters consist of three splitter types. A one input, two output single-link video signal; a one input, four output single-link video signal and; a one input, two output dual-link video signals splitter. Each unit is supplied with a DC power supply as well as all required cabling.

The Models

The **VDA-1 (SL 1:2)** distributes a Single-Link DVI video source to two Single-Link displays.

The **VDA-2 (SL 1:4)** distributes a Single-Link DVI video source to four Single-Link displays.

The **VDA-3 (DL 1:2)** distributes a Dual-Link DVI video source to 2 Dual-Link displays.
