

VDA Series DVI Splitter

Single-Link 1:2

QUICK START GUIDE

The Logical Solution

The VDA-1 1:2 Splitter from Thinklogical™ sends a video source to two displays without signal loss. Installation is plug-and-play with no adjustments required. Each model is also compatible with most Thinklogical™ DVI Extenders.

The Models

VDA-1 (SL 1:2) distributes single-link DVI to 2 single-link displays.

VDA-2 (SL 1:4) distributes single-link DVI to four single-link displays.

VDA-3 (DL 1:2) distributes dual-link DVI to two dual-link displays.

Source CPU

DVI OUT

STEP 3: Connect one end of the Single-Link DVI-D male to male cable to the video source (DVI-D video card) and the other end to the DVI IN connector on the VDA Splitter. Ensure all video output displays are functioning properly.

STEP 2: Connect the 5VDC Power Supply (PWR-000022-R) to the INPUT POWER JACK located on the front panel of the VDA Splitter's chassis and plug it into a standard AC source.

5VDC Power Supply

STEP 1: Connect one end of a Single-Link DVI-D male to male cable from your Primary Output Monitor to the DVI OUT 1 DDC connector on the VDA Splitter's front panel. Connect one end of a Single-Link DVI-D male to male cable from your Secondary Output Monitor to the DVI OUT 2 connector.

When you receive your **Single-Link 1:2 VDA Series DVI Splitter** you should find the following items:

- Single-Link M-M, 2 meter DVI Cable (2)
- AC/DC Adapter
