## C4ISRNET CONFERENCE: TRENDS IN JADC2 INNOVATION MULTI-DOMAIN SITUATIONAL AWARENESS AND COLLABORATION: Thinklogical Presents

The requirement to provide the warfighter with a clear view of the modern battlespace is driving the development of Joint All Domain Command and Control (JADC2). This initiative will tie information from a wide range of sources and sensors across domains (air, sea, space, land, cyber) into a unified C2 environment that links all service branches and increases the speed and accuracy with which commanders can make decisions.

Thinklogical is proud to be the Platinum Sponsor of the JADC2 session track at this year's C4ISRNET Conference, being held online April 21. This annual event brings together thought leaders from government and industry to collaborate on ways all-domain warfare can lead to battlespace overmatch.

Our own John Rosenbach, sales director for US Southeast and JADC2 program lead, will present on the latest trends and technologies available for all domain command and control. Registration is free. [LEARN MORE](#)

VP U.S. Federal

## ENHANCING OPERATIONS AND SUPPORT: AIR MISSION PLANNING

VIRTUAL EVENT APRIL 21: Join Us!

Operating in the information warfare age brings its own unique opportunities and challenges, as nations seek to enhance air power, while guarding against potential vulnerabilities and managing unprecedented volumes of data. This meeting will provide a stage to discuss new and innovative systems, and efforts to upgrade, modernize and

improve existing platforms, as allied air forces continue to seek the operational edge. Thinklogical is excited to be a sponsor and exhibitor of Air Mission Planning and Support 2021 and hope you can attend. [REGISTER](#)
